WHAT THIS IS

An AI-scaffolded English-language learning platform for **LALA109 · English for Digital Communication Skills** at the Faculty of Liberal Arts, Mahidol University. Six adaptive missions across Thailand, each anchored to a UN Sustainable Development Goal, culminating in a teacher-graded *Voice for Change* capstone — a 2-to-5-minute proposal addressed to a real Thai institution.

THREE LOAD-BEARING CLAIMS · ALL AUDITABLE

CLAIM 1 · AI-TPACK ENFORCED AT THE SYSTEM-PROMPT LEVEL

The boundary between what AI handles (scale, formative feedback) and what humans handle (summative grading, cultural authenticity) is hard-coded into the Claude API system prompts of Mr Compass and the AI Judges — not merely declared in the application. Open `/pages/judge-tour.html` Step 8 to see this in the admin console.

CLAIM 2 · THREE LEARNING THEORIES MADE OPERATIONAL

Behaviorism (Insight Token economy · operant conditioning), Cognitivism (5-stage arc · CTML multimedia), Social Constructivism (3-role asymmetric team · Mr Compass as MKO) — each cited theorist maps to a specific feature you can click on. See *Teacher's Manual* Chapter 4 for the triptych mapping.

CLAIM 3 · COMPLIANCE AND ACCESSIBILITY BUILT INTO THE FOUNDATION

PDPA · พ.ร.บ. คุ้มครองข้อมูลส่วนบุคคล พ.ศ. 2562 · with bilingual consent + 90-day auto-deletion. CAST UDL 3.0 across the three principles. WCAG 2.1 AA verified by Google Lighthouse (Accessibility · 100 / 100 on home and Judge Tour). Mobile-first from 360 px upward.
